

EGO EVACUATION CHAIR

Boasting SOLOGO technology (Single Operator Load & Go), evacuation using the EGO can be effected quickly with only one operator. The EGOs unique stair blade track system offers superb grip and control on the stairs and its 2 wheel concept makes it easy to use and travel downstairs.

Features:

- Easy to open, load and travel downstairs.
- 2 wheel Load & Go solution.
- Instant deployment.
- Stability when loading.
- Extra slim when stored.
- Comfortable and supportive seat in a level position for easy loading.
- Auto brakes on wheels when folded.
- Includes wall mounted bracket and dust cover.
- Great budget chair that does the job!

Specifications:

- Payload capacity 180kg (28 stone)
- Product Weight 13.5kg
- Dimensions (stored) H141xW50xD22 cm
- Landing size 75x75cm min
- Stair angle 28-42°
