

Redbacks®

Pocket Knee Pads

Ergonomically designed slide-in knee pads for use in pocketed work trousers, to provide protection, comfort and help reduce the risk of injury to individuals who kneel for long periods of time.

Features:

- Redbacks® patented, SATRA award winning leaf spring cushioning Technology
- Engineered to give support to the knees by suspension rather than compression
- Absorbs and evenly distributes body weight, without flattening
- Eliminates pressure points
- Helps to alleviate discomfort in the back, legs, and ankle joints
- Reduces postural stressing
- Curved design to fit comfortably around the knee
- Fits in all pocketed work trousers
- 100% shape recovery when not in use
- Abrasive resistant cover, protects knees against penetration from sharp objects
- Provides thermal protection from warm or cold surfaces
- Washable at 30°C
(can be left in trousers)
- 100% recyclable pad

Specifications:

Length: 20cm
