

Stairline Compact 150

Portable Stair Climber

The Stairline Compact 150 is a portable, motorised stair-climber designed to enable wheelchair users to safely ascend and descend stairs - while still in their wheelchair, in the event of an emergency evacuation or elevator malfunction.

Features:

- Simple and quick to deploy.
- Adjustable wheel chair clamping system, easily attaches to almost any manual wheel chair.
- Battery operated motorised track system moves on stairs with no strength needed by the operator.
- Auxiliary wheels enable the operator to move the unit around landings and across flat surfaces indoors and outdoors.
- Loading stand.
- Rechargeable, removable battery pack and charger.
- Simple operator controls.
- Safety key operated.
- Passenger safety belt.
- Adjustable head rest.
- Folds for easy storage.
- Charge indicator.
- Stair angle gauge.
- User hand book.
