

EZ GLIDE LBS

Bariatric Stair Chair

The EZ Glide LBS Bariatric Evacuation Chair combines all the benefits of the popular EZ Glide evacuation chair with the addition of an extended seat and reinforced frame, enabling it to carry individuals with a greater physical mass. Great for use as an emergency evacuation chair or patient transfer chair.

Features:

- Extended sides
- Strengthened frame
- One inch track-to-ground clearance.
- Front swivel-wheels.
- Positive locking hinge mechanism.
- Rear carry handles.
- Extendable front grab handles and rear handles.
- Extending 'reinforced' foot plate.
- Three patient restraints.
- Adjustable breaking system.
- IV pole attachment.
- Winch attachment.

Specifications:

- Height: 950mm
- Depth: 850mm
- Width: 595mm
- Weight: 29kg
- Max load: 318kg

Product Code: EZGB001

There are many additional extras available separately such as a seat cushion, cushioned headrest/shoulder support and O2 cylinder holder. Contact us for more information.
